FLIGHT HELMET SYSTEM

EXPERIMENTAL FLIGHT HELMET BAG

XB-3

Lightweight, foldable, and built for aviation life, the XB-3 Flight Helmet Bag fits easily into any aircraft space. Designed to securely carry your flight helmet, headset, and essential gear, it keeps everything protected, organized, and mission-ready wherever you fly. Trusted by pilots worldwide.

KEY FEATURES

CORDURA
Fabric

MIL-B
CERTIFIED
MIL-B-43290J
CERTIFIED

Heavy-Duty Cordura Fabric

Built from heavy-duty Cordura fabric for rugged, long-lasting protection. Designed to handle daily aviation use while maintaining a clean, professional look.

Lightweight Design

Strong where it matters, light where it counts easy to carry without adding unnecessary bulk to your flight kit.

Fits Into Any Place in the Aircraft

Made to work with limited onboard space. The foldable, space-smart shape fits easily into tight cockpit/cabin compartments and small storage areas.

Customizable Details

Custom options and embroidery allow you to tailor the bag to your unit, squadron, or personal preference professional, recognizable, and mission-ready.

Waterproof Zippers

Equipped with waterproof zippers to help keep moisture out and protect critical equipment during ramp operations, travel, and changing weather conditions.
